## MONGOOSE DRILL RIG

This drill serves as a multiple application unit. Use it for wet drilling applications up to 3" diameter, or with our cobra dry drilling bits up to 6" diameter.

- Convenient adjustable shoulder rest.
- Three-position hand grip
- Internal water feed
- Slip clutch and thermal overload for added safety
- Carry case and tools included

### MONGOOSE SPECIFICATIONS:

Power	115 volts/12 amps
RPM	2200
Weight	9 lbs.
Thread Size	18mm/1-1/4-7

## BLOCK BUSTER DRY DIAMOND CORE BITS

- Ideal for fast clean holes
- Thread the 5/8"-11 arbor on to any right angle grinder and go to work
- Suitable for work on concrete block as well as soft clay brick

**Note: Not recommended for use on cured concrete.**

## COBRA DRY DIAMOND CORE BITS 10" LENGTH

Designed to drill in concrete, reinforced concrete, brick, bluestone and limestone.

- **No water needed.** Eliminates the mess associated with drilling wet.
- **No long set-up time.** Plug in your drill and go to work; save as much as 20 to 40 minutes per hole.
- **Interchangeable center pin and shank.** These bits use the same drilling accessories between all sizes.
- **Drills reinforced concrete.** These bits can drill up to 6000 psi cured concrete with up to 1" rebar.
- **Deeper drilling depth.** Almost twice the depth of a carbide drill bit. These will give you up to 10" of drilling depth.

## WET DRILLING DIAMOND CORE BITS (PREMIUM)

- Our most popular core bit gives you excellent footage and drilling speed
- Designed for applications with light to moderate steel
- Great bit for all types of hard materials
- Can also be ordered for drilling asphalt

## WET DRILLING DIAMOND CORE BITS (SUPER PREMIUM)

- Very high diamond concentration for maximum footage and drilling speed in all types of wet drilling applications
- Performs well in moderate to high steel
- Great bit for all types of hard materials
- Can also be ordered for drilling asphalt

## CORE BORE M-4 RIG

### 3-SPEED, VERY POWERFUL & JUST 35 POUNDS!

- Weighs only 35 pounds (rig -20 lbs.; motor -15 lbs.)
- 6" bit capacity (3" handheld)
- Combination Stand quickly angles to 45°
- 3-speed hand held drill motors with overload clutches are available with choice of 110V electric, 220V electric, air or hydraulic power
- Mast can rotate 360° on swivel stand
- Reversible slide handle (use on left or right side of rig)
- High strength, hard anodized, 1-1/2" X 2" aluminum column
- 4 adjustable slide bearings provide superior carriage rigidity
- Carriage lock

Convenient WEKA carrying case

WEKA DK12 handheld drill

## CORE BORE M-1 RIG

### BEST-SELLING CORE BORE RIG!

- 1" to 10" bit capacity (14" with one spacer)
- Dual switch/outlet control panel & amp meter
- Slide handle permits drilling in tight areas
- Streamlined base and carriage
- 2-1/2" square column with black oxidized finish
- Quick changeover from vacuum to anchor base
- 6" wheels for better mobility

## CORE CUT CC2500 SERIES CONCRETE SAW

DELIVERS THE POWER OF A LARGE SAW WITH THE COMPACTNESS AND ECONOMY OF A SMALL ONE!

- Economical screw feed raise/ lower mechanism standard or with optional power raise/lower assembly
- Positive gear drive to rear axle via Eaton hydrostatic transmission
- Now offered with hydraulic raise/lower on all models
- Maximum cutting depth 10-3/8" with 26" guard
- 2-position tilt handlebars
- Choice of 14", 20" or 26" slip-on blade guards
- Large 5-gallon fuel capacity for longer sawing between refills
- Rigid high-strength 3/16" steel box frame with heavy bar reinforcement
- Gas, electric or hydraulic engine options up to 27 HP
- 1-1/2" diameter bladeshaft with bearings that are greaseable from the top of the frame

## CORE CUT CC3700 SERIES CONCRETE SAW

THE MOST COMPACT 65 HP SAW ON THE MARKET!

Fits through a 30" door!

- Forward-positioned motor for more weight at the blade (and less at the operator)
- One hand sawing control
- Features powerful 65 HP Wisconsin gasoline engine (also available with 30 HP Deutz Diesel engine)
- Choice of 14" through 36" blade guards
- Choice of Sunstrand or Eaton transmission
- Maximum cutting depth of 14-3/4" with 36" guard
- Has a frame designed for the higher torque of a large horsepower engine but more compact than the CC6500

## CORE CUT CC1300XL CONCRETE SAW

THE PORTABLE CONCRETE SAW BUILT EXTRA TOUGH

- Extra sturdy handles adjustable to 4 positions for precise control; doesn't rattle like other adjustable handles
- Available with Honda gas engine or with optional 5 HP electric motor (1 or 3 phase)
- Left or right hand swing
- Available as an optional 10 HP electric saw with 20" blade capacity (on an extended frame)
- Through rear axle for added strength
- 6-5/8" maximum cutting depth with 18" blade guard
- Solid, sealed self-aligning blade shaft ball bearings

## SPEEDICUT CUT-OFF SAWS

THE MULTI-PURPOSE CUT-OFF SAW WITH THE BEST POWER-TO-WEIGHT RATIO IN THE INDUSTRY

Now available in a 16" blade capacity model!

- Light weight, balanced and portable
- 5-stage filtration system
- Smooth, square cutting through a wide variety of materials
- Smooth start decompression valve that reduces by 70% the amount of force needed for start-up

3 to 4-hour delivery available!
